Product reference

Functional Coat with double face

Composition

Brief description

Man's outfit made with the following fabrics:

S7 (FRIES) - Article 100% organic cotton with GOTS certification, with wide spine structure, natural colour comfortable to use, even without additional washing cycles.

G1 (AMADOR) - Article composed of 50% recycled cotton - pre consumer with GRS certification. It is a resistant and versatile denim, with a unique colour characteristic given by the high percentage of recycled fibre.

G1 (HITACHI) - Article composed of hemp - fibre vegetable origin that in the past was used in the sails of Portuguese ships. Selvedge denim distinguished by its extreme resistance, durability and breathability. Rustic appearance with the well-known red bands on the selvedge, ideally used for different details.
