Fabric reference

5647ND01

Weight (g/m²)

Composition

100% Organic Cotton

Brief description

Garment created with knitted fabric. Natural extract-based dyeing technology - the perfect arrangement of sustainability and uniqueness. Also a new-tech hybrid finish that delivers neat and clean surfaces with more refined, smart touches that range from a subtle sheen to glowing velvet finishes and semi matt optics - plummy by Tintex. This process allows having 30% savings in dyestuffs and makes the garments very long lasting and durable and it is a certified finishing technology. This technology also focuses on its environmental impact, due to the elimination of potentially toxic effluents generated by synthetic dyestuffs, the use of low temperatures on the dyeing process and the substitution of traditional auxiliaries with natural occurring alternatives.

Sustainability evidences

Company certified ISO 14001 for the environmental management (certificate nº PT17/05995) + Bluesign® system partner (nº SPMT 024.405-22669) + STeP by OEKO-TEX® - sustainable textile production (certificate nº 15000512)
