Product reference

3

Composition

Bunho and Pinatex

Brief description

Bag made with BUNHO - indigenous ancestral material from Portugal, caught in the rivers and worked by artisans who tell a story of generations and PINATEX - innovative material from a fibre extracted from pineapple leaves, a by-product of Philippine agriculture. Both are natural and sustainable materials, very durable, do not contain animal products and chemicals and provide income to local communities. Bag developed following the principles of circular economy and cultural values.
